# Leandro Martínez

FULL STACK DEVELOPER

## Professional profile

Full Stack Developer with hands-on experience in both frontend and backend development, specializing in React, Node.js, and TypeScript. I have a proven track record of building scalable and efficient web applications using modern tech stacks. Known for quickly adapting to new technologies and effectively collaborating in agile environments. Eager to join a dynamic team where I can leverage my skills and continue advancing my career.

# Experience

### Frontend Developer

**Work simulation and development of a HealthTech application, 2024**

Collaborated in the development of a HealthTech application within a simulated real-world work environment. Utilized collaborative tools like Slack, Trello, and Google Meet for task management and seamless team communication. Implemented SCRUM methodology to streamline workflows, emphasizing teamwork, continuous feedback, and iterative improvements.

### Freelancer

**Web application for electric vehicle service, 2024.**

Developed a web application for managing technical services of electric vehicles, including customer registration and real-time repair status updates, leading to improved service tracking and enhanced customer satisfaction.
Key functionalities:
-Customer management and repair status tracking.
-Automatic notification by WhatsApp at the end of the service.
Technologies: React, Context API, Node.js, Express, MongoDB, Render and Vercel.

### Web master | Administrative assistant | Tester

**Avelino Acevedo S.A, 2017 - Present**

Designed and maintained websites using platforms like Wix, Shopify, and WordPress, resulting in increased web traffic and sales.
Conducted software testing, identifying and reporting critical bugs to enhance the user experience.
